

# 7-day wine-tasting holiday

Andros, Greece, 6th to 13th July 2019

## The Magic of Andros

Have you experienced the enchantment of the Greek islands? If you have, you will doubtless want to come again. If you have not, now is your opportunity with this week of wine-tasting and gastronomic luxury in the perfect holiday environment.

Base is a luxury villa close to sea and mountains. It is like staying at a 5\* hotel but with a smaller number of people, all of whom share a common interest of good wine and good food.

Wines and Tours seek to provide a balance of wine education and holiday bliss. This particular Wine holiday leans more than most of our wine events to the holiday features, but it includes at least one wine activity every day. Check out the full programme at

## See how Tsipouro is made

On one of our days we will be visiting the Tsipouro distillery in Pitrofos, visiting the nearby Cyclades Olive Oil Museum, have a Greek cooking class and explore the beautiful town of Chora.

## Organised Hike

Andros is famous for its nature trails. An organized hike through woodlands is one of the holiday activities on offer.

## All the Seaside Activities

Sailing, surfing, yachting - even yoga classes are close at hand. These are optional extras.

## Food and Wine

As well as the winery visits, you will experience abundant good food both at local restaurants and at Heliades..
